I was told that the ROKU can play music, show pictures, and videos from Windows Home Server It amazes me that so many people refer to the product they have purchased that is branded 'Roku' then proceed to write to these forums and fail to correctly state which model and type of product they are actually describing.

Option is greyed out What are you trying to accomplish - Installed VirtualBox to run a VM with anti-virus as there are no anti-virus options for WSH 2011.. I'm not used to being outside of the DVP forum Environment: Version of VirtualBox installed: 4.
